About Global Consciousness through the Arts: A Passport for Students and Teachers

Conceived from the current political, social, economic, spiritual, and environmental issues of our times, ***Global Consciousness through the Arts: A Passport for Students and Teachers*** provides the tools for teachers and students to succeed in the 21st Century.

It raises the consciousness of students and teachers to the critical challenges that confront us in the new human world, providing them a starting point from which they can be engaged in shaping their own destiny through the re-creation of the international community culture.

Re-creating the international community will require not only consciousness of the issues and challenges, but also the passion associated with innate human creativity through educating the whole person cognitively, aesthetically, physically, and spiritually for growth and achievement through the arts.
