Message from the President...New website?

The International Society for Education through Art (InSEA) seeks a Webdesigner to update its website!

There is a three-stage application process:

Stage one: Designers with a proven track record are invited to submit a sample of website experience (Drupal or WordPress), for example a draft landing page and sample page(s) to include an indication of layout and navigation, together with a folio of past work in web development. As InSEA is a not for profit professional international association, previous experience with both public facing and private member areas would be desirable across diverse language/geographic interfaces.

Deadline 1 June 2020 - please note that no fee will be offered for this stage.

Members of the Executive Board and Marketing, Social Media and Protocols working group will select two or three webdesigners to proceed to stage two. Detailed requirements, for example, content management, navigation and member only sections will be provided to the successful candidates at this stage.

Stage two: The selected webdesigners will develop a prototype website showing main functionalities and a fully costed proposal with timeline.

Deadline: 1 July 2020 A design fee of €500.00 will be paid for this stage.

Stage three: Terms of contract will be agreed with successful candidate.

The society plans to migrate content to the redesigned webpages by **1 September 2020**.

If you are interested in this design opportunity and working with the worldwide community of education through art, we want to hear from you. For informal enquiries please contact the President: president.insea@gmail.com

And... Let's not forget our Draw Closer... Campaign...

Please use hashtags **#inseadrawcloser** and **#drawcloser** to make it easier for us to locate and track contributions..

At a time when governments in almost every country are advising 'social distancing', we are advocating 'drawing closer' in a sensitive and creative way. Our digitally connected world can enable us to work together, collaborate, create and share our thoughts and feelings about the role of art in education and, more broadly, in society.

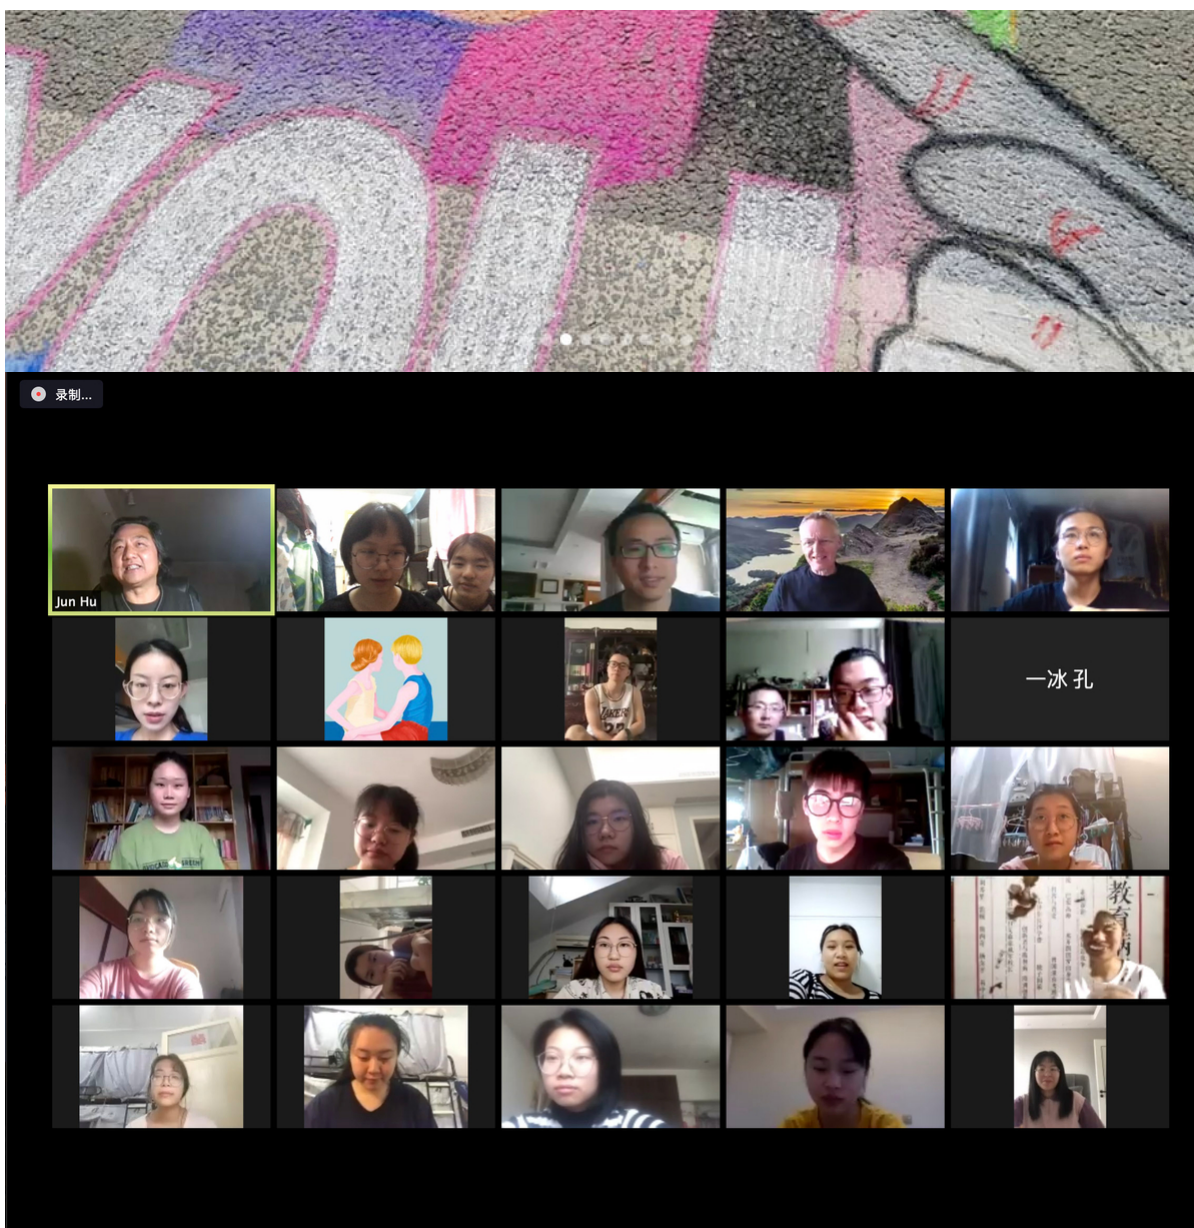

InSEA has always been a member-led organisation, we care deeply about art, education and each other. In these difficult times, it is more important than ever that we work together to create and share positive messages with each other. Inspiring strategies/ideas to connect with students during a time when schools are closed.

We have very active social media channels ([Facebook](#), [Instagram](#) and [Twitter](#)), we invite our members to express ideas for 'drawing closer' and share them using these outlets, it may be a few words, drawing, photograph, video almost any media. Use your imagination and help us create a digital demonstration of art educators drawing closer together.

We hope you will take part as we will show the world the collective power of education through art.
